

## RFK Charter School Reopening

### **A Checklist for Students Who Choose In-Person Learning**

Remember, we're still dealing with a pandemic, so school will look and feel different.

#### **Dress in layers and bring a jacket or sweater.**

Classroom windows, doors, and air conditioning dampers will be open to circulate fresh air, leading to fluctuating temperatures during the school day.

#### **Bring your fully-charged Chromebook and charger to class with you every day!**

Some of your classmates will still be learning remotely, you'll still be receiving most of your instruction on your RFK-issued device.

#### **Bring a face mask and wear it all day**

*(except when you're eating or drinking.)* Extra face masks will be available at school if you forget.

#### **Don't forget your water bottle!**

Students won't be allowed to use water fountains, but water stations will be available to fill up reusable bottles.

#### **Free breakfast and lunch will be served at school for all students!**

Students at school will be encouraged to eat outside when possible.

#### **Keep your distance!**

Students and staff will be expected to social distance to the greatest extent possible, which means no large group activities or gatherings such as field trips,

assemblies, and end-of-year festivals. RFK does plan to hold a limited in-person high school graduation in May.

**Don't share!**

Students should avoid sharing musical instruments, supplies, books, and other materials.

**Wash your hands!**

School custodians will make it a priority to clean high-touch surfaces and stock bathrooms with soap and classrooms with hand sanitizer and other cleaning supplies.

**Sorry, no visitors on campus.**
